MAXSYS TECHNOLOGY CO., LTD

# Focused on Printing Industry System Solutions

## Total Solution

Smart Source Technology Co., Ltd. is an experienced developer and integrator of Enterprise Resource Planning (ERP) systems, e-commerce trading platforms, and prepress automation workflows, dedicated to providing comprehensive solutions and professional services for the printing and packaging industry.

We specialize in information management technology for the printing industry, combining the most advanced development frameworks and languages, gathering outstanding management experts and research achievements from senior scholars and professors of academic societies, committed to advancing cutting-edge management for printing enterprises.

While fully utilizing advanced ERP management concepts, we develop an integrated platform system featuring distributed architecture, multi-language support, cross-platform compatibility, multi-ledger capabilities, and group-level management, specifically tailored to the characteristics of the printing and packaging industry and years of industry experience.

Integrating numerous industry resources and supporting multiple terminals (computers, mobile phones, tablets, cloud), we can fully meet the mission of "Building Information-Based Enterprises"

1. Founded in 2008, two organizations: Hong Kong Company + Dongguan Company
2. Serving 200+ companies, 6 leading and listed companies
3. Independently developed 9 series, 32 products with independent intellectual property rights
4. Products cover every link of the industry value chain, providing comprehensive solutions for enterprises
5. Possess an experienced development team and a comprehensive service system
6. Specialization, Refinement, and Focus are our principles. We devote ourselves to perfecting each product and serving each customer well.

E-commerce Platform - Online Order Placement
Online DIY - Online File Upload

Diagnose Enterprise Operating Status
Dashboard is Clear and Understandable

Smart Dashboard - Dynamic Updates
Decision Analysis - Exception Notifications

Self-Service Quotation - Online Approval

Automatic Aggregation - Decision Analysis
30+ Financial Reports to Assist

Automatic Plate Opening - Smart Calculation
Quickly and Automatically Generate Work Orders

Automatic Production Scheduling - Smart Calculation
Multiple Adjustments - JIT Integration

Quick Submission - Real-Time Updates
Human-Machine Interaction - Full Participation

# ERP + MSP Full-Scale Automated Process

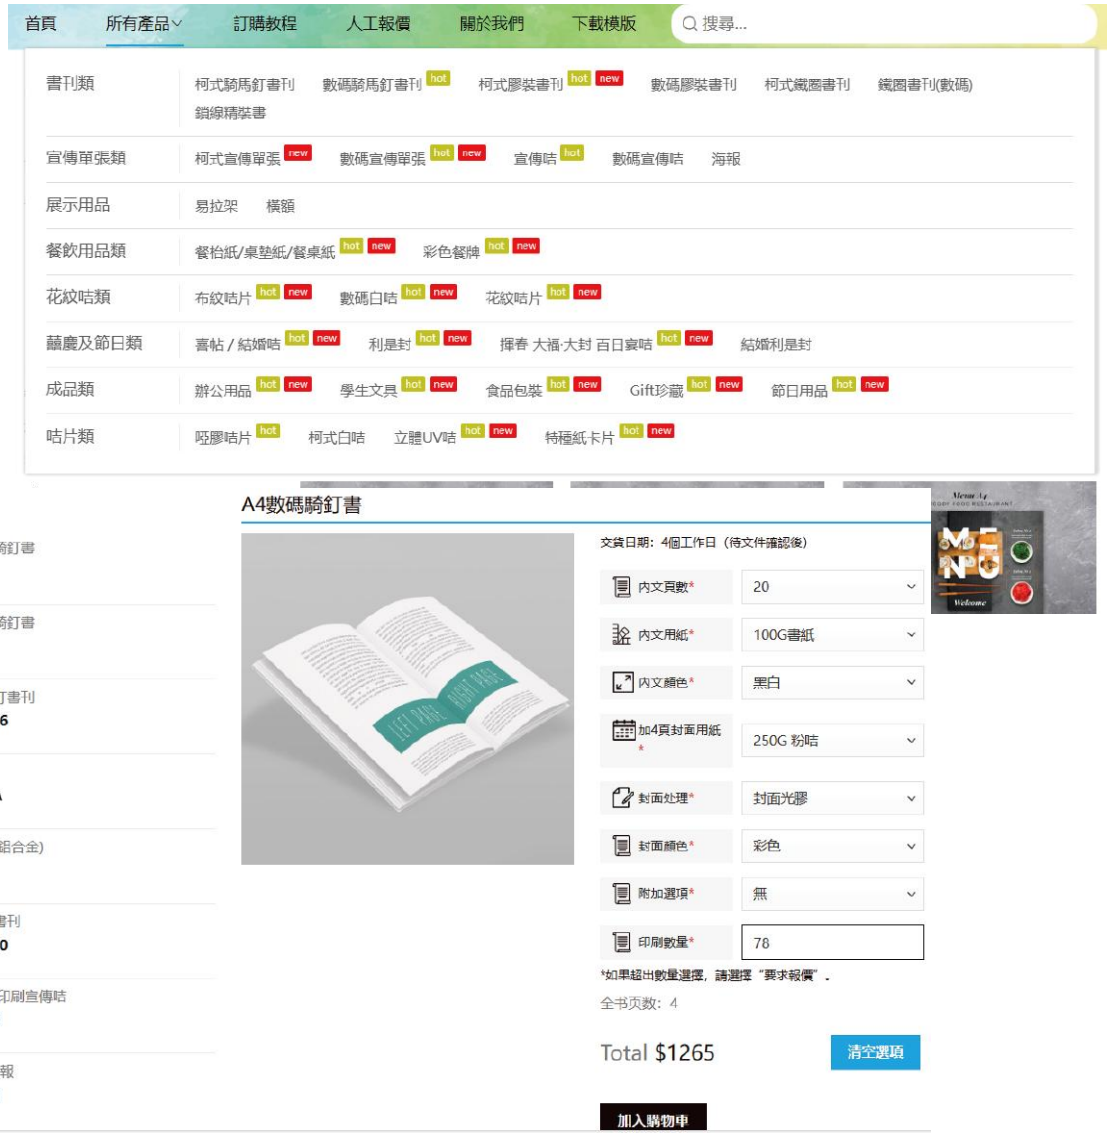
| c | Mobile Web System | Required Option |
| d | WeChat Official Account | |
| e | WeChat Mini Program | |
| f | APP | |
| g | Integrate ERP or Other Systems | |

# 1 E-commerce Platform eShop

## eShop Main Station

- a Customized UI Development Interface
- b Independent Website, Convenient for Company SEO
- c Support Mobile Devices / PC Devices
- d Support Mini Program
- e Customized Development for Payment Interface Integration
- f Customized Development for Logistics Interface Integration
- g Support Fixed Products
- h Support Dynamic Products
- i Rich Product Configuration Library
- j Support Multiple Languages



# 1 E-commerce Platform eShop

## eShop Mobile Quotation

- a Customized UI Development Interface
- b Support Different Types of Products
- c Select Different Parameters, Such as Paper, Technology
- d Quickly Modify Material Prices
- e Fast Quotation, Accurate Results
- f Quickly Calculate Multi-Quantity Tiered Prices
- g Submit and Convert to Order, Import to ERP System

# 1 E-commerce Platform eShop

Mini Program/Official Account/APP

a Customized UI Development Interface

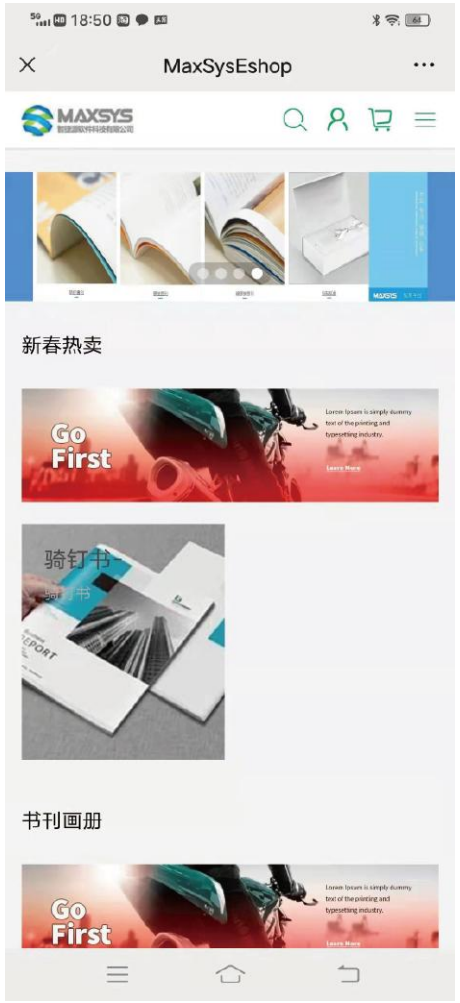
b Independent Website, Convenient for Company SEO

c Mobile WeChat Official Account

d Mobile WeChat Mini Program

e Mobile APP

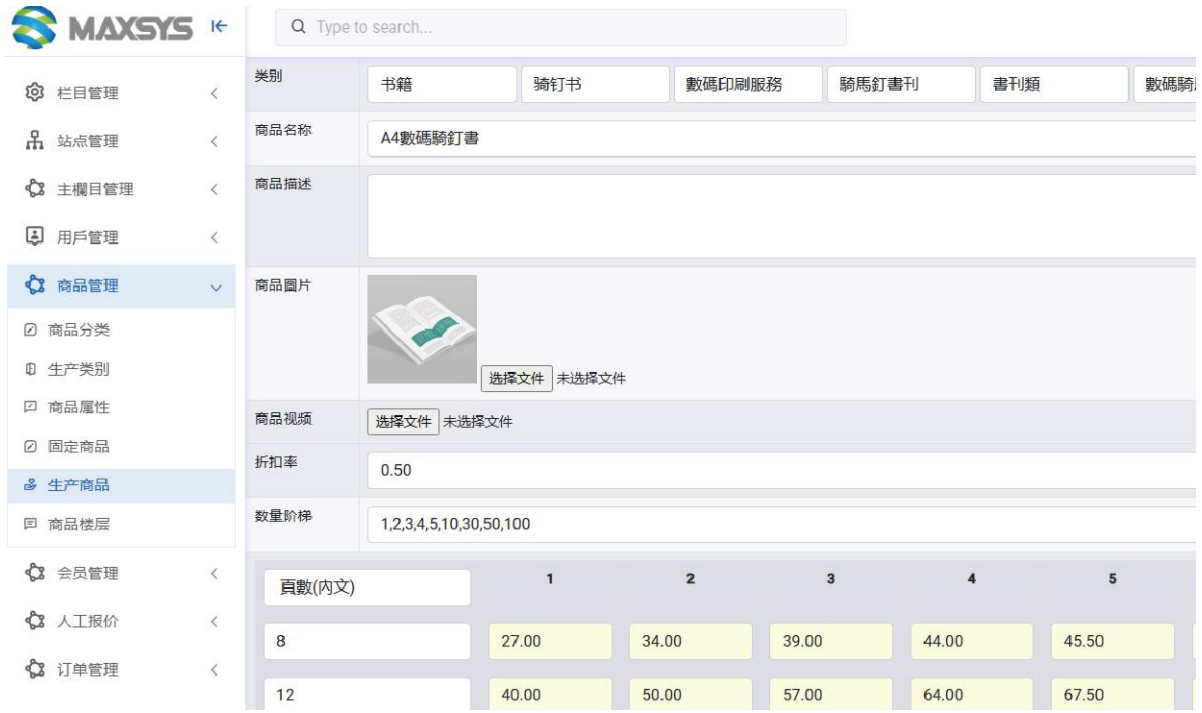
f Full-featured, Meeting User Needs



# 1 E-commerce Platform eShop

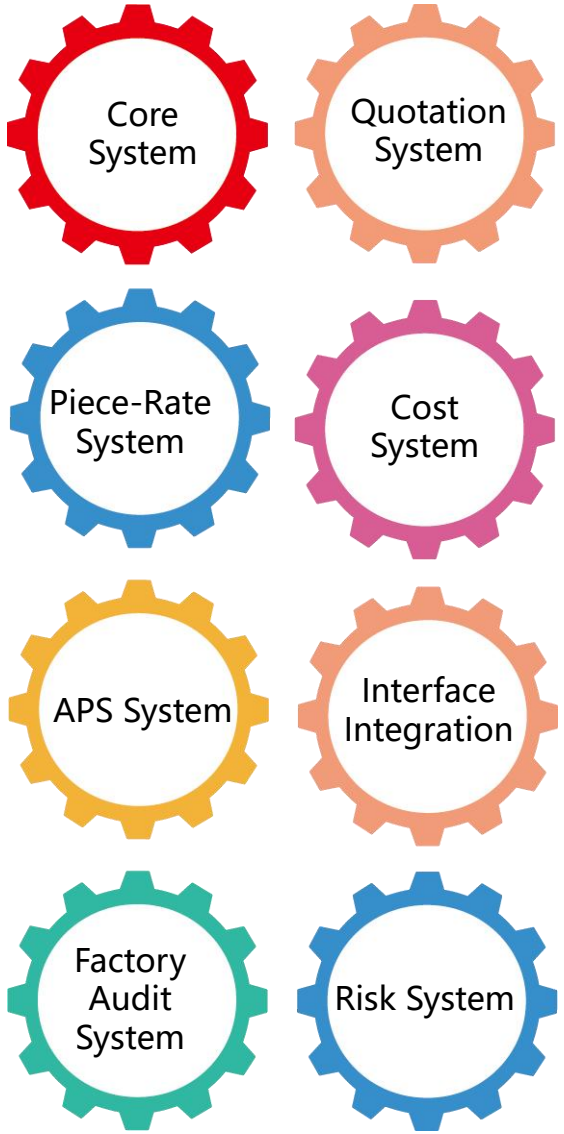
## Backstage Management System

- a Simple Interface
- b Site Management
- c Column Management
- d Product Management
- e Quotation Management
- f Member Management
- g Order Management
- h API Management



## 2 ERP System

| | | |
|---|---|---|
| a | ERP Core System | Required Option |
| b | Quotation System | |
| c | Piece-Rate System | |
| d | Cost System | |
| e | APS System | |
| f | Large Customer Interface Integration | |
| g | Factory Audit System | |
| h | Financial Risk System | |



# 2 ERP System

## ERP Core System

a. Basic Data: System Basic Module

b. BOM Data: Product Data Module

c. Order Module: Sales/CS Order Entry

d. Trade Module: Production Order Outbound Process for Non-Produced Items

e. Work Order Module: Production Work Order

f. PMC Module: PC and MC

g. Outbound Module: Partial Process Outbound for In-House Production

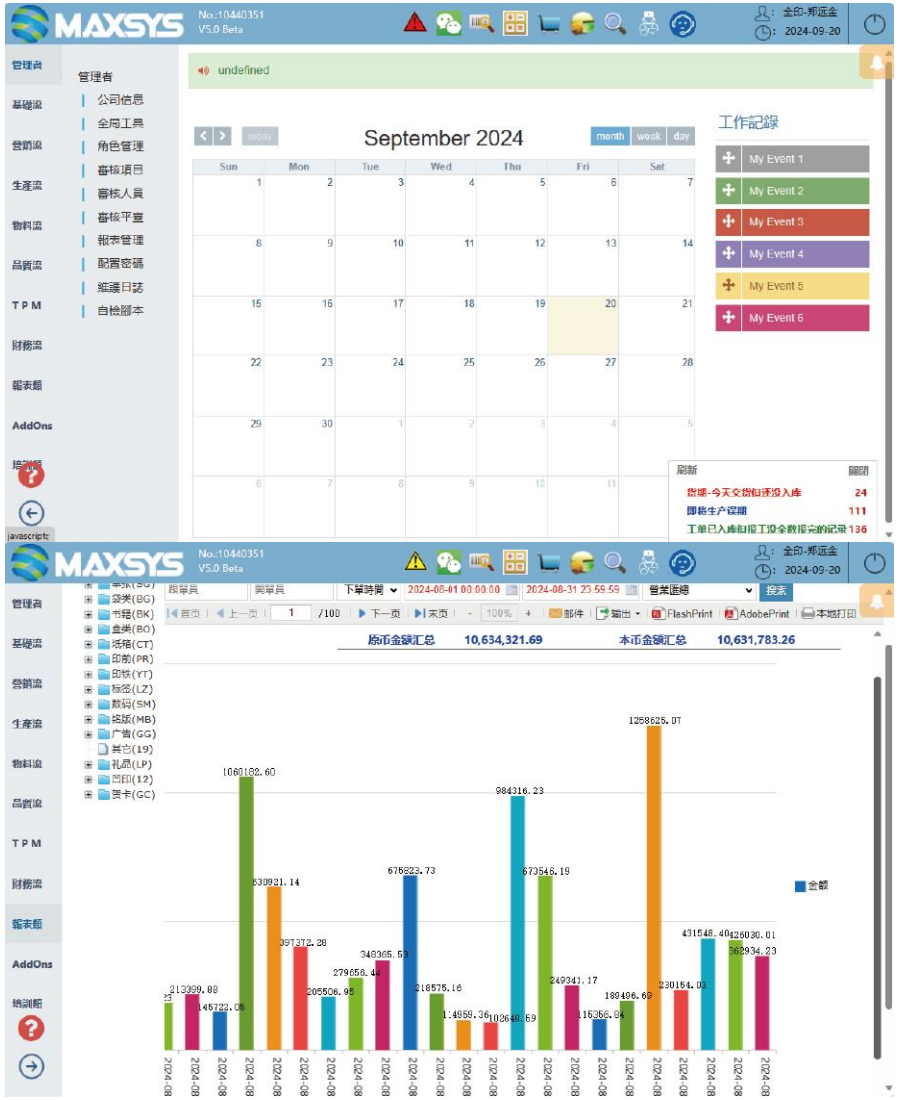
h. Procurement Module: Requisition/Procurement/Strategy/SRM

i. Quality Module: IQC/IPQC/FQC/OQC/8D&CAR

j. Warehouse Module: Raw Materials/Finished Goods/Molds/Samples/Customer Materials

k. DN+INVOICE Module: DN and INVOICE Module

l. Finance Module: Reconciliation and Accounts Receivable Statement, Accounts Payable Module



# 2 ERP System

## ERP Core System

## Fast Go-Live Guarantee

a. Production Foundation: 580 Common Industry Processes and Comprehensive Settings

b. BOM Data: 86 Common Product Category Templates Complete

c. Material Foundation: Innovative Relative Material Mode Requires Only Hundreds of Material Codes

d. Initial Import: Support Excel Import

e. Loss Standards: Built-in Printing Industry Specifications.

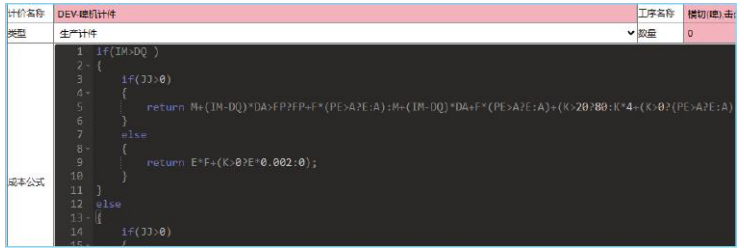
f. Price Standards: Built-in Printing Industry Specifications.

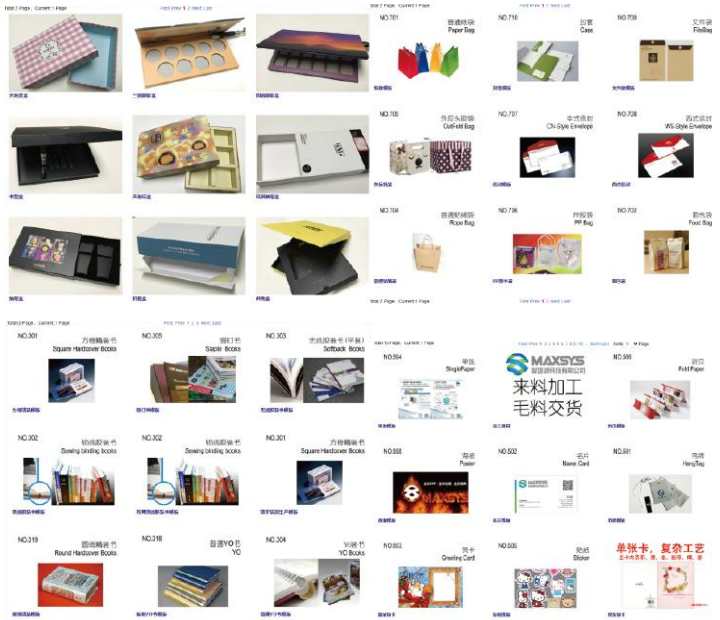
g. Logic Foundation: Can write formulas to solve logical operations without modifying code

h. Alert Mode: Set Multiple Concerns and Events as Needed, System Automatically Detects and Reminds

i. Information Interaction: System Interface, Email, WeChat, Whatsapp, Message Notifications

j. Approval Workflow: Can Set Approvals for Any Form Workflow, Operable on Computer and Mobile





# 2 ERP System

## ERP Core System

## Example: Work Order/BOM

a. Friendly Interface, Simple Operation, Concise Process

b. Automatically Generate Work Orders, Automatically Calculate Planned Costs

c. Product BOM Structure Clear, Calculation Logic Rigorous

d. Can Introduce BOM Production, Can Generate BOM from Orders

e. Support Quick Modification and Adjustment of Work Orders

f. Support Batch Production of Large Orders

g. QR Code Automatically Generated for MES and Mobile Scanning

h. Detailed Reports, Meticulous and Complete, Clear and Concise

# 2 ERP System

## ERP Core System

## Example: PMC

a. Material Planning Automatic Process, Clear Material Status

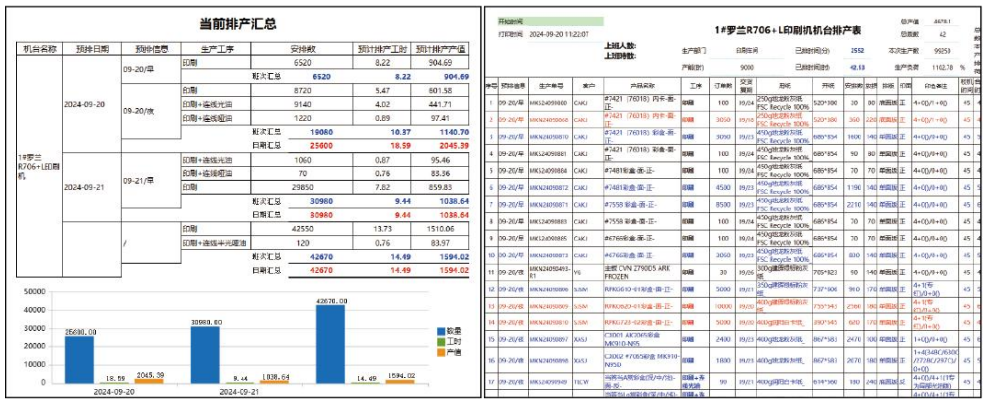
b. Automatic Material Patrol, Automatic Material Locking, Automatic Material Allocation

c. Process Automatic Calculation and Decomposition, Automatic Scheduling by Rules

d. Reports Clear, Data Accurate, Plans Ordered

e. Can Connect to APS, Three-Level Optimization Scheduling

f. PMC Control“Man-Machine-Material“



# 2 ERP System

## ERP Core System

## Example: Quality Management

a. Standard Parts AQL Data Ready to Use

b. Common Industry Issues Ready to Use

c. Customer Complaints/IQC/IPQC/FQC/8D/CAR/LabTest

d. Mobile Device Scanning, Photo Upload of Issue Images

e. Strong Chart Analysis Capability, Clear Results Display

f. Professional QC Module Improves Quality Management Capability

# 2 ERP System

## ERP Core System

## Example: Mobile Application

a. Support Android App, Support WeChat

b. Mobile Approval for Various Forms Such as Procurement, Outbound, etc.

c. Scan Work Order QR Code for Labor Reporting, QC, Material Receiving, Reprinting, etc.

d. Mobile Query of Various Data

e. Mobile Query of Daily Business, Production, Sales

f. Mobile Query of Enterprise Daily Gross Profit

g. Flexible Permission Configuration Without User Limit

# 2 ERP System

## ERP Core System

## Example: Exception Notification

a. Set Unlimited Monitoring Sensors as Needed

b. Transaction Conditions: Set Conditions to Trigger, Such as Delay

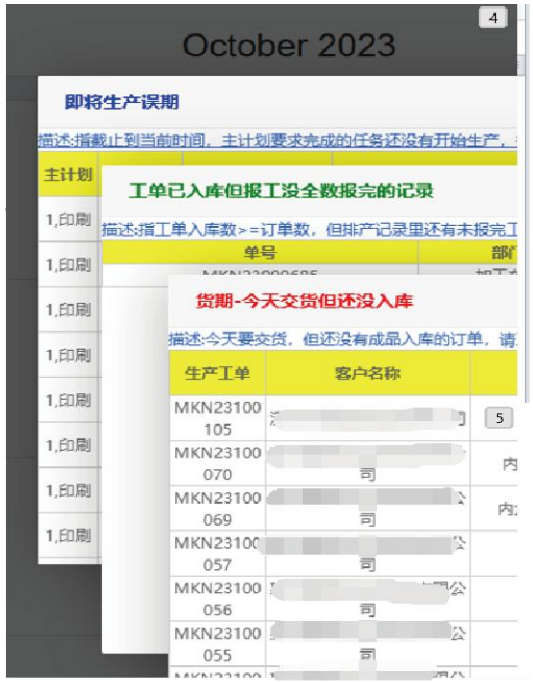
c. Event Trigger: Specific Event Triggers, Such as Returns

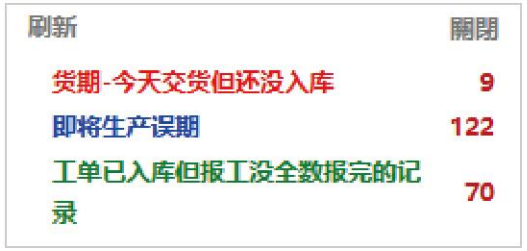
d. ERP Interface Popup

e. Email Notification

f. WeChat Notification

g. SMS Message Notification





# 2 ERP System

## ERP - Cost System

a. Order Entry Automatically Calculates Planned Costs

b. Production Process Monitoring System Automatically Extracts Real Costs

c. Accurately Calculate Gross Profit

d. Accurately Calculate Net Profit

e. Comparative Calculation of Business, Engineering, Production Cost Compliance Rates

f. Truly Achieve One Order One Cost, One Order One Accounting

g. Fully Automatic Calculation, No Manual Required, Accurate Results

# 2 ERP System

## ERP - APS System

a. Support Delivery Date Forward Algorithm

b. Support Order Multiple Date Reverse Algorithm

c. Automatic Calculation, Mark Completion Required Date

d. Calculate and Generate Process Production Pressure Prediction

e. Exception Situations, First-Time Alert

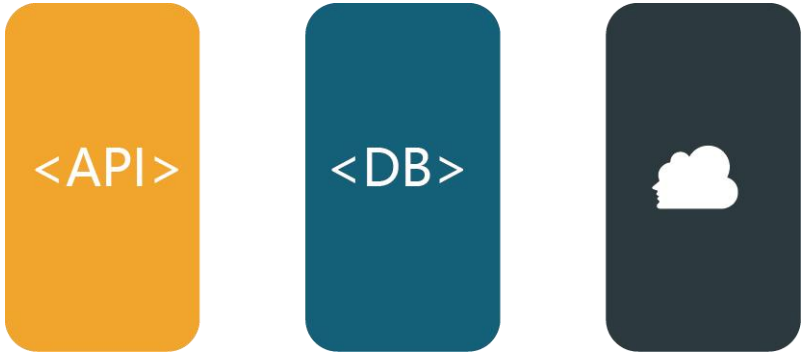
## 2 ERP System

ERP - Large Customer Interface Integration / Factory Audit System / Financial Risk System

a. Specialize in Large Enterprise API Integration, Such as AG, Midea, Xinbao, SAP, etc.

b. Through Data Management Meet Factory Audit Requirements for Different Enterprise Modes

c. Through Data Management Technology Help Enterprises Avoid Government Financial Audit Risks



# 2 ERP System

## ERP - Dashboard / Enterprise Doctor

a. Built-in 120 Important Management Indicators

b. Dashboard Category Display Results

c. Freely Configure Management Indicator Targets

d. Automatically Calculate Enterprise Management Score

e. Analyze Low-Score Items for Improvement

# 3 MES System

MES Core System / Data Collection System / Smart Large Screen System / IoT Connection

a. Core System Connect ERP

b. Big Data Analysis System

c. Equipment Data Procurement

d. Smart Large Screen System

e. IoT Hardware and Gateway

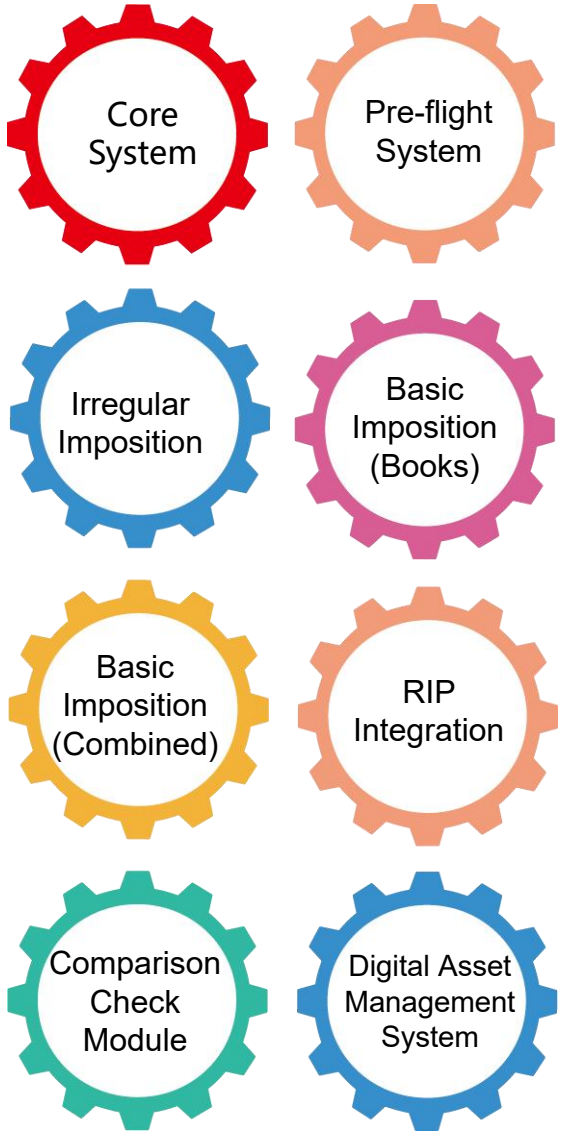
# 4 Prepress Automation - MSP

a. Prepress Automation MSP Core
b. Pre-flight System
c. Auto Optimization
d. Irregular Imposition
e. Basic Imposition (Books)
f. Basic Imposition (Combined)
g. RIP Integration
h. Comparison Check Module
i. Digital Asset Management System



# 4 Prepress Automation - MSP

## MSP Core

a. Manage Jobs, Import or Create Jobs

b. Manage “WorkflowAgent”

c. Control According to “Workflow”Execute

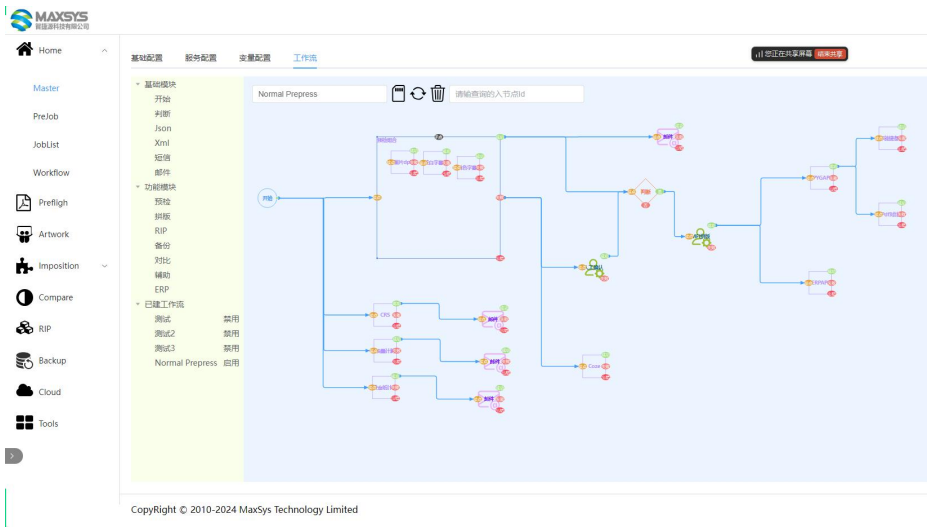
d. Process Data Collection, Exception Reporting

e. Drive and Command Each Work Component (Worker)

f. Standard API Interact Data with Each System

g. Support Integration with Order System and ERP, MIS Systems

h. Support Each OS System, Support Multi-language



# 4 Prepress Automation - MSP

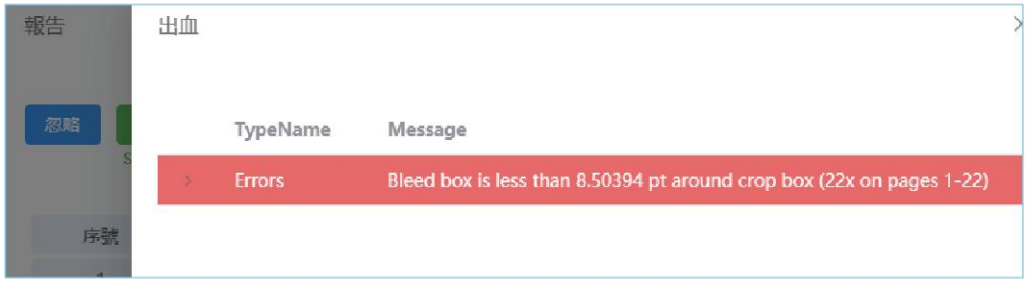
## File Pre-flight

a. Support Over 40 File Exception Item Checks

b. Use AI to Complete Functions That Traditional Methods Cannot

c. Support Hot Folder Mode, Support Multi-threading

d. Can Automatically Send Emails and Messages to Customers and Business



# 4 Prepress Automation - MSP

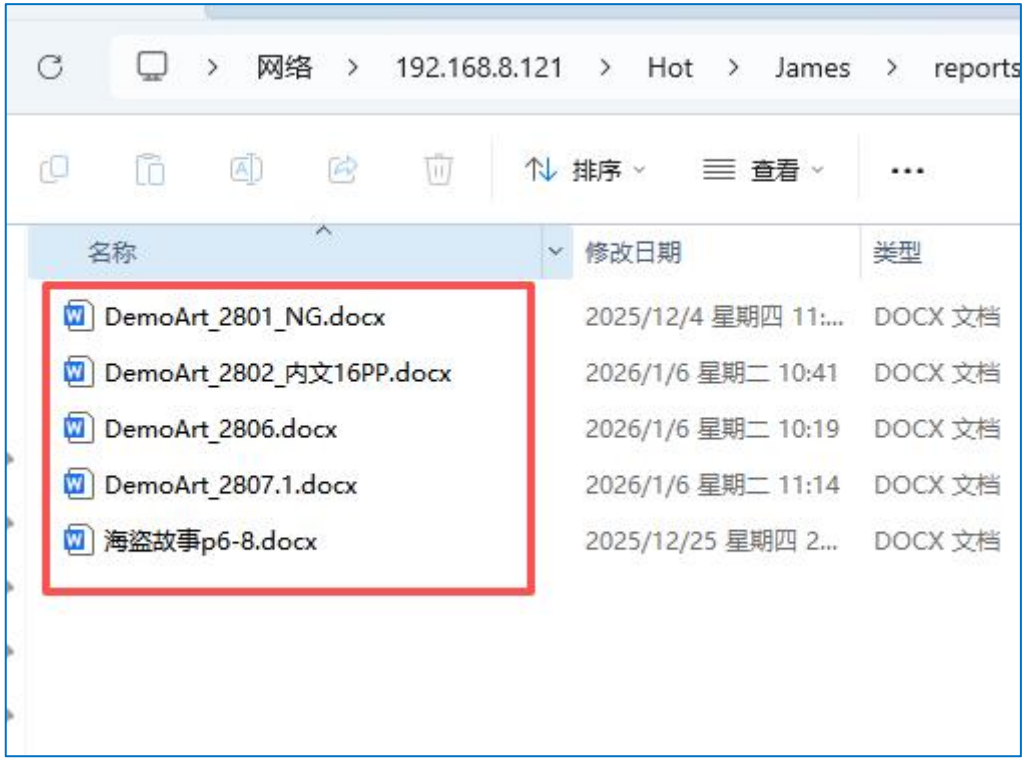
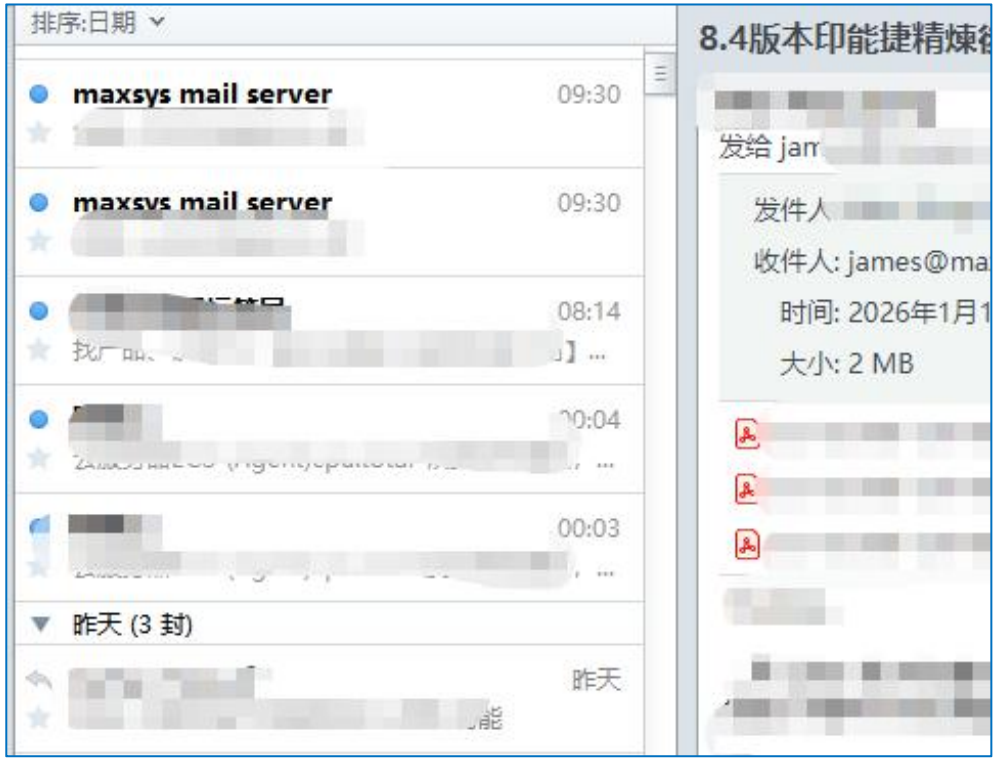
# 4 Prepress Automation - MSP

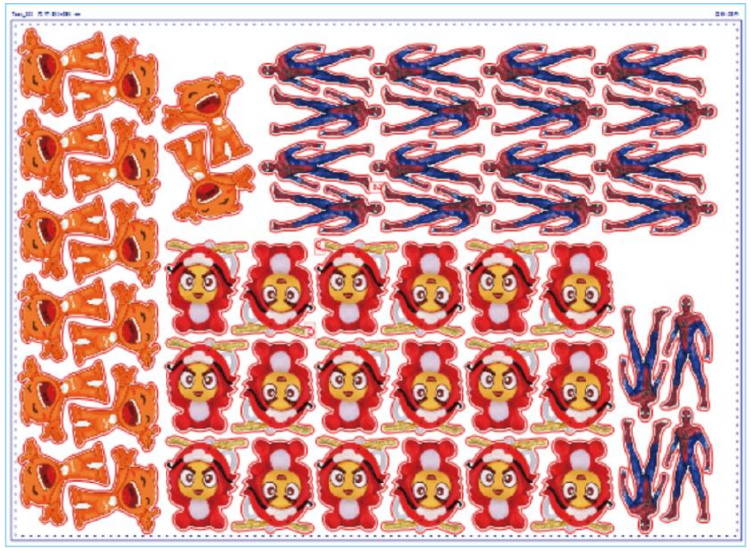




# 4 Prepress Automation - MSP

## Irregular (Non-standard) Imposition

- a Connect ERP/Order System/External System
- b Can Import Imposition via CSV
- c Can Pull PDF for Imposition Generation Offline
- d Auto Outline for Die Line
- e Auto Add Bleed
- f Auto Calculate Ratio Imposition
- g Fragment Orders Quick Processing One-Key Mixed Imposition Quick Output
- h Standard API Can Connect to ERP or Other Systems



# 4 Prepress Automation - MSP

## Fast Variable Data Generation and Imposition

a. Custom Template

b. Import CSV and Excel Files

c. Auto Generate Files

d. Auto Imposition and Generate Imposition PDF

e. Combine Auto Workflow Direct Print

# 4 Prepress Automation - MSP

## Full Auto Workflow Imposition Print

a. Connect ERP/Order System/External System

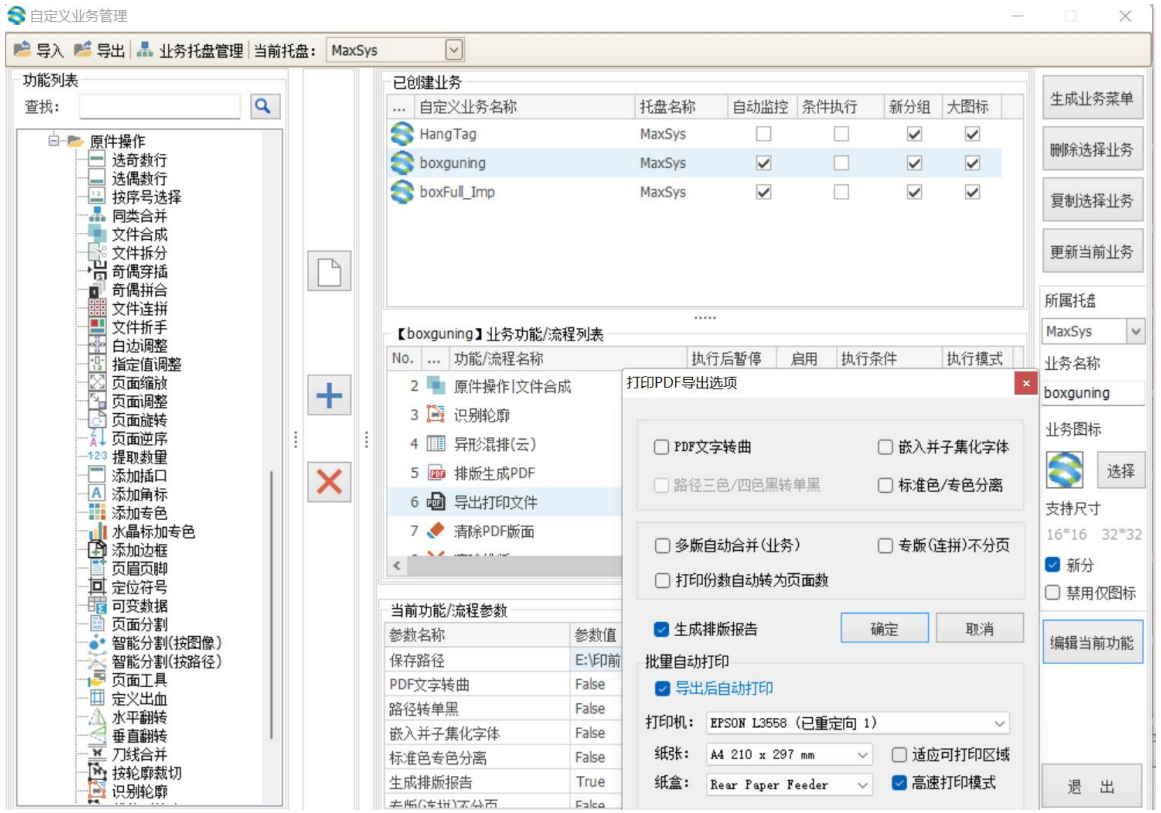
b. Can Import Imposition via CSV

c. Set Automation Template

d. Set Automation Workflow

e. Connect Data Printer Auto Print

f. Achieve Unattended Operation



# 4 Prepress Automation - MSP

## Basic Imposition (Books)

a. Connect ERP/Order System/External System

b. Can Pull PDF for Imposition Generation Offline

c. Set Multiple Paper, Machine Types, Stitching Methods

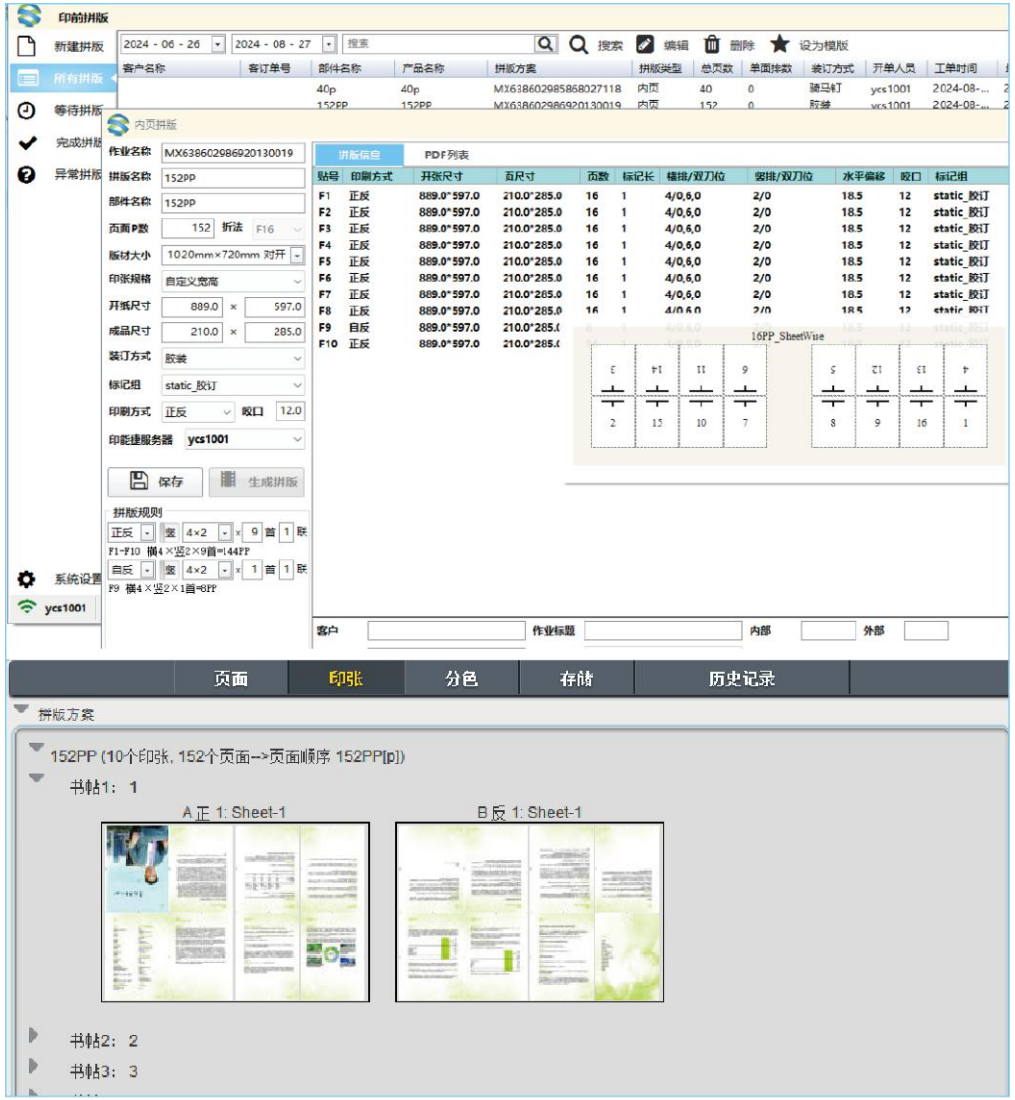
d. No Need to Create Templates (tpl/pjtf etc.)

e. One-Click Submit Achieve Full Auto Imposition

f. One-Click Generate RIP Job (Such as Prinergy)

g. Solve All Prepress Automation Most Critical Security Issue (No PDF Manipulation)

h. Standard API Can Connect to ERP or Other Systems



# 4 Prepress Automation - MSP

## Basic Imposition (Combined)

a. Connect ERP/Order System/External System

b. Can Import Imposition via CSV

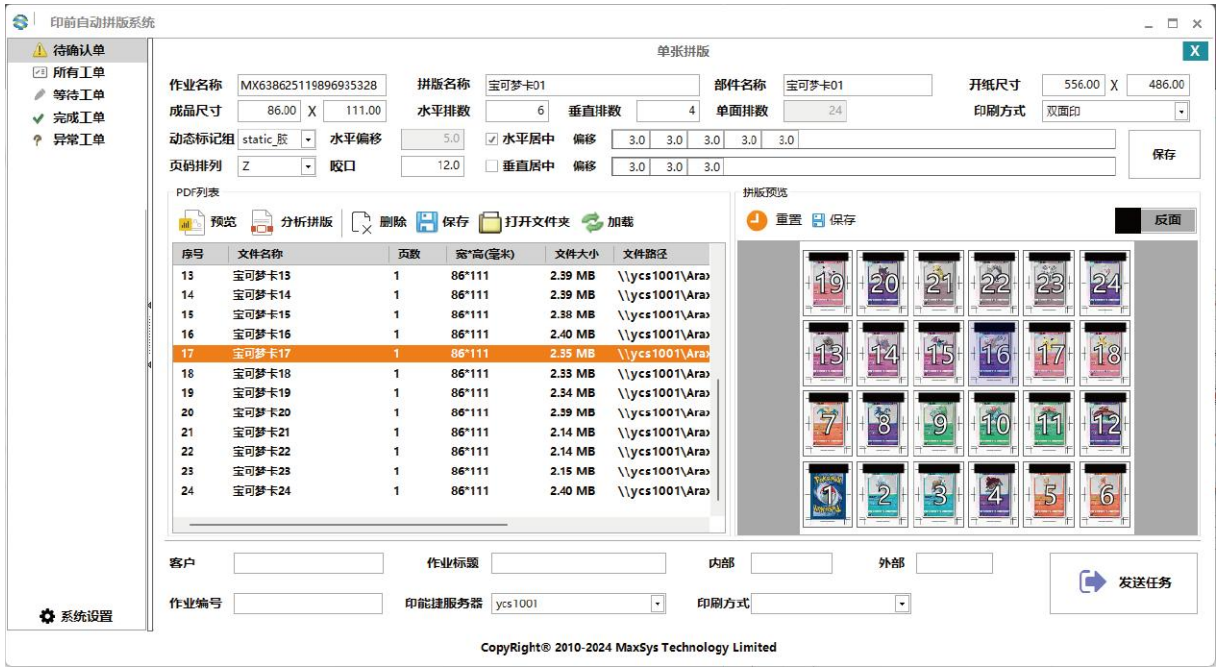
c. Can Pull PDF for Imposition Generation Offline

d. Auto Calculate Different Quantities

e. Auto Calculate Position Imposition

f. Can Manually Adjust Positions

g. Auto Send to RIP Generate Job



# 4 Prepress Automation - MSP

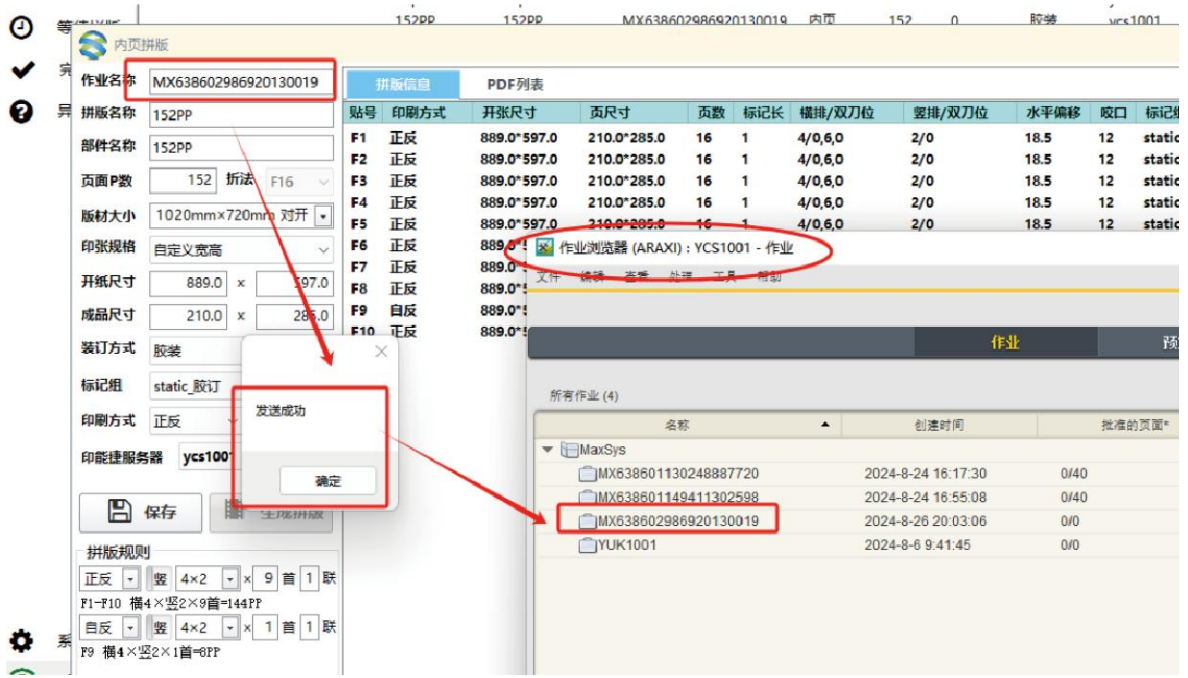
## RIP Integration

a. Integrate Prinergy

b. All File Processing Handled by Prinergy

c. Drive, Callback, Monitor

d. Secure, Efficient, Stable



# 5 Tool Products

## CRS File Content Compliance Review System

a. Built-in Complete Regulatory Compliant Sensitive Words

b. Auto Translate and Detect Minority Languages

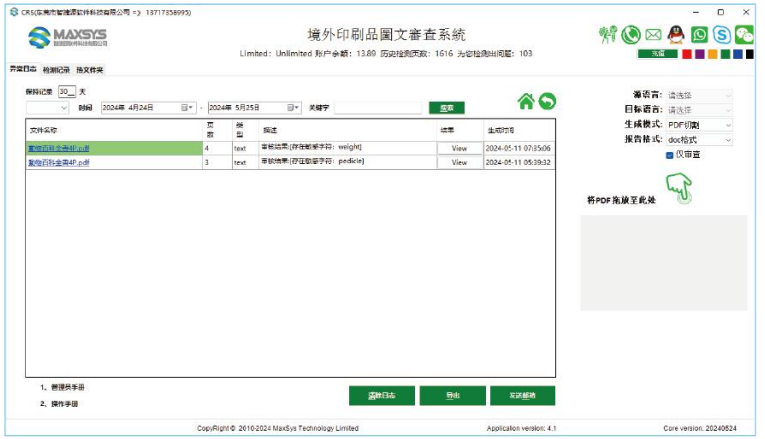
c. Can Detect Compliance of Images, Text, Maps

d. Export Results, Can Send Email Notifications

e. Hot Folder Shared Use, Unlimited Users

f. Can Connect to Prepress Workflow Full Automation Processing

g. Standard API Can Integrate with ERP



# 5 Tool Products

## InkCalc Ink Calculation Tool

a. Directly Parse PDF File Calculation

b. Fast Processing Speed, Support Single/Multiple Page Files

c. Export Results, Can Send Email Notifications

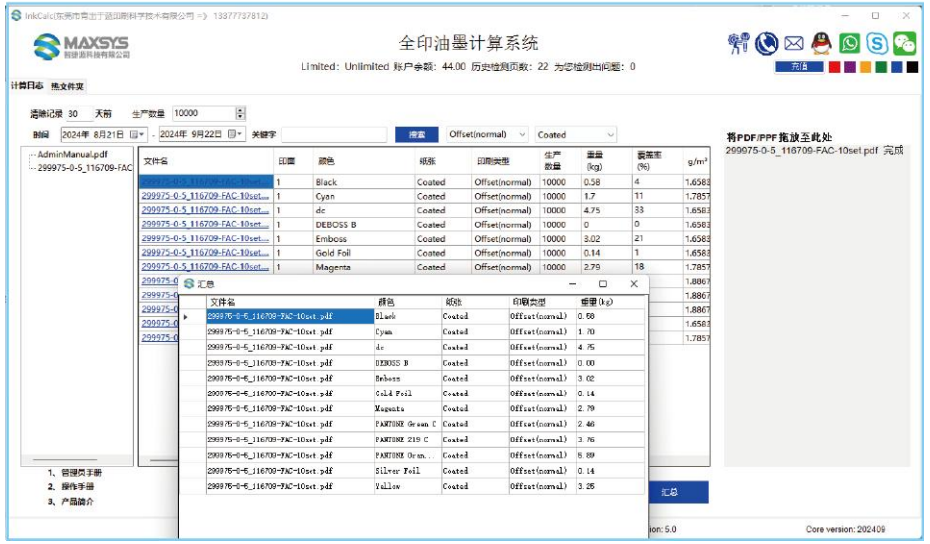
d. Hot Folder Shared Use, Unlimited Users

e. Can Connect to Prepress Workflow Full Automation Processing

f. Accurate Results, Solve 7 Major Issues in Right Image

g. Can Save Millions Annually

h. Standard API Can Integrate with ERP System



# 5 Tool Products

## Stamping Area and Material Calculation Tool

a. Quickly Analyze PDF List Stamping Information Selection

b. Parse and Calculate Stamping Color Block Information

c. Calculate Stamping Plate Size According to Standard

d. Support Jump/Straight Pull Mode Calculation

e. Calculate Stamping Material Usage According to Standard

f. Quickly Estimate Cost and Pre-order Materials

g. API and ERP System Integration Data

| | | | |
|---|---|---|---|
| **Order No:** PD-OS-202601-0001 | **Creator:** admin | **Created At:** 2026-01-22 | **Base:** Overseas |

**Products**

| Internal No | Customer No | Product Name | Product Code | Qty | Delivery Date |
|---|---|---|---|---|---|
| OS-20260122-001 | 20260131 | 利是封 | C3-20260122-001 | 10000 | 2026-01-31 |
| OS-20260122-001 | 20260131 | 封套 | D1-20260122-001 | 2500 | 2026-01-31 |
| OS-20260122-001 | 20260131 | 盒座 | box/盒类-20260122-001 | 5000 | 2026-01-31 |
| OS-20260122-001 | 20260131 | 盒套 | A1-20260122-001 | 5000 | 2026-01-31 |

**Components**

| Component | Plates | Pages | Colors | Process Type | Layout | Rows | Material | Spec | Open | Mach Size | Mach Qty | Makeup | Paper Qty |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| 利是封 | 0 | 0 | 1+1 | Offset | Single Side | 3 | 130g意象绵摩登纸 | 760*1054 | 5 | 760*211 | 14600 | 0 | 2920 |
| 盒套 | 3 | 3 | 1cxc | Offset | Single Side | 1 | 130g意象绵摩登纸 | 760*1054 | 3 | 380*527 | 400 | 0 | 134 |
| 盒座 | 0 | 0 | cxc | Offset | Single Side | 1 | 130g意象绵摩登纸 | 760*1054 | 4 | 380*527 | 1000 | 0 | 250 |
| 封套 | 0 | 0 | 1cxc | Offset | Single Side | 1 | 130g意象绵摩登纸 | 760*1054 | 4 | 760*211 | 2000 | 0 | 500 |

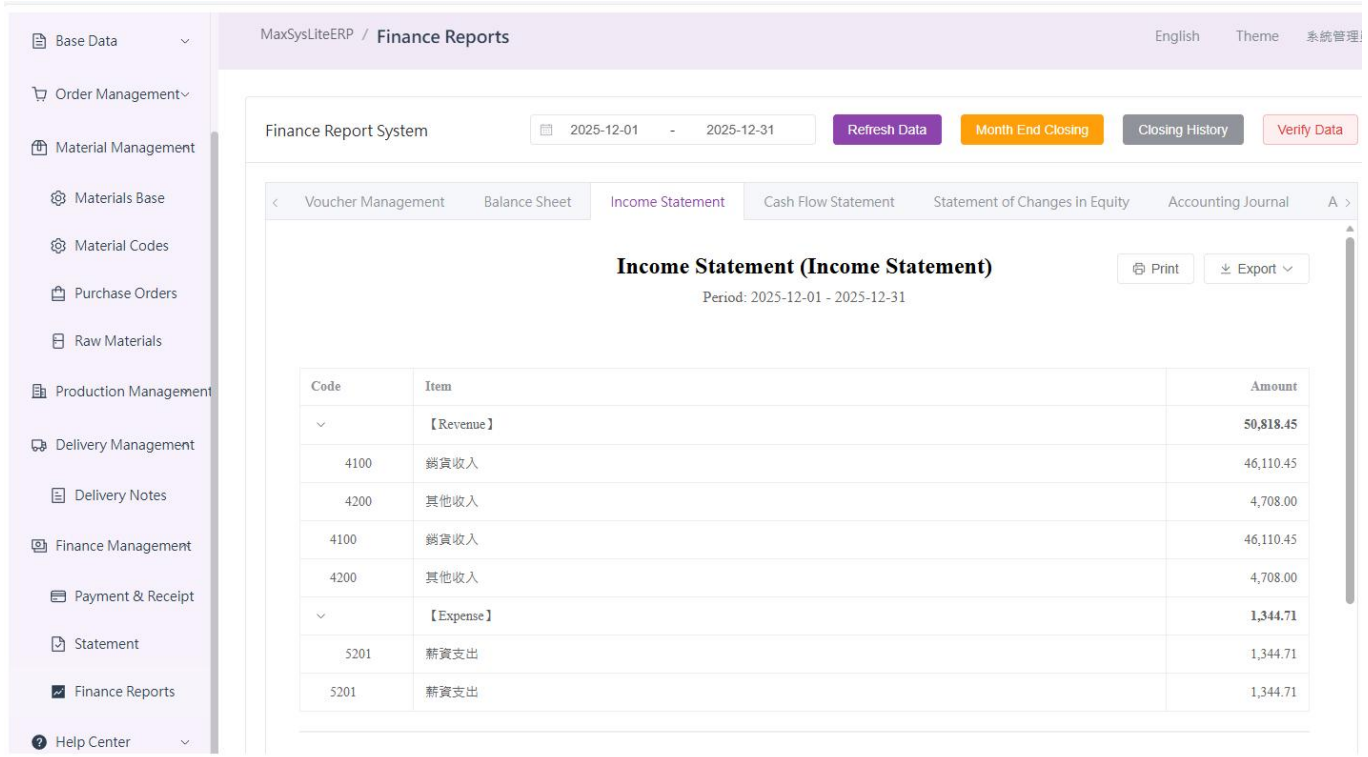
**Post Process**

| Component | Vendor | Requirement | Del Date | Del Addr |
|---|---|---|---|---|
| 盒套 | 东莞市天邦纸业有限公司 | 印刷後再裱纸,切成單個浸金及啤 | 2026-01-29 | |
| 盒座 | 东莞市天邦纸业有限公司 | | 2026-01-08 | |

**Package**

# 6 Lite ERP

- Support Cloud/Local
- a Support Multiple Languages
- b Support PC and Mobile
- c Full-featured, Simple Operation
- d Meet Most Small and Micro Enterprise Needs
- e Suitable for Small and Micro Enterprises



# 7 AI + API + BI Products

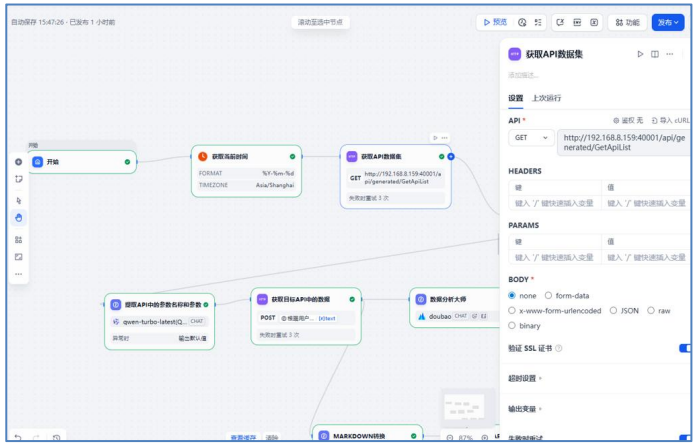
## AI Product

a. Hardware Foundation Building

b. Workflow Building

c. Model Training

d. API Encapsulation



```
double max_area = 0;
int max_contour_idx = -1;
for (int i = 0; i < contours.si
    double area = cv::contourAr
    if (area > max_area) {
        max_area = area;
        max_contour_idx = i;
    }
}

# 7 AI + API + BI Products

- What Services Can Be Provided to Enterprises
- Requirement Analysis and Solution Design
- Foundation Build LLM
- Data Preprocessing and Model Training
- Workflow Orchestration and Automation
- API Fast Support Platform
- API Layer Development and Encapsulation
- Multi-terminal Interaction Portal Development
- Custom Development
- Model Training
- Operations and Iteration
- Training and Support
- Hardware

# 8 Other Systems

| | | |
|---|---|---|
| a | WMS System | Smart Warehouse Integrates RFID, VGA, Handheld Scanning and Other Software/Hardware Equipment, Efficient and Clear Warehouse Management |
| b | SRM System | Supply Chain Management System as ERP Product Extension, Better Supply Chain Management |
| c | QMS System | Quality Management System as ERP Product Extension, Better Quality Management |
| d | CRM System | Customer Relationship Management System Includes Customer Management, Business Opportunity Management, Return Visit Records, Follow-up Records, Sample Records, Transaction Records, Customer Assessment and Other Functions |
| e | PLM System | PLM System Can Greatly Help Enterprises in Product Development and Innovation ， Also Covers File Management, Change Management, Project Management, BOM Management and Other Core Functions |
| f | OA System | MaxSys OA is a Very Mature Product, SaaS-enabled, Supports 27 Languages, Full-featured, Simple Operation, Can Integrate into Other Systems |

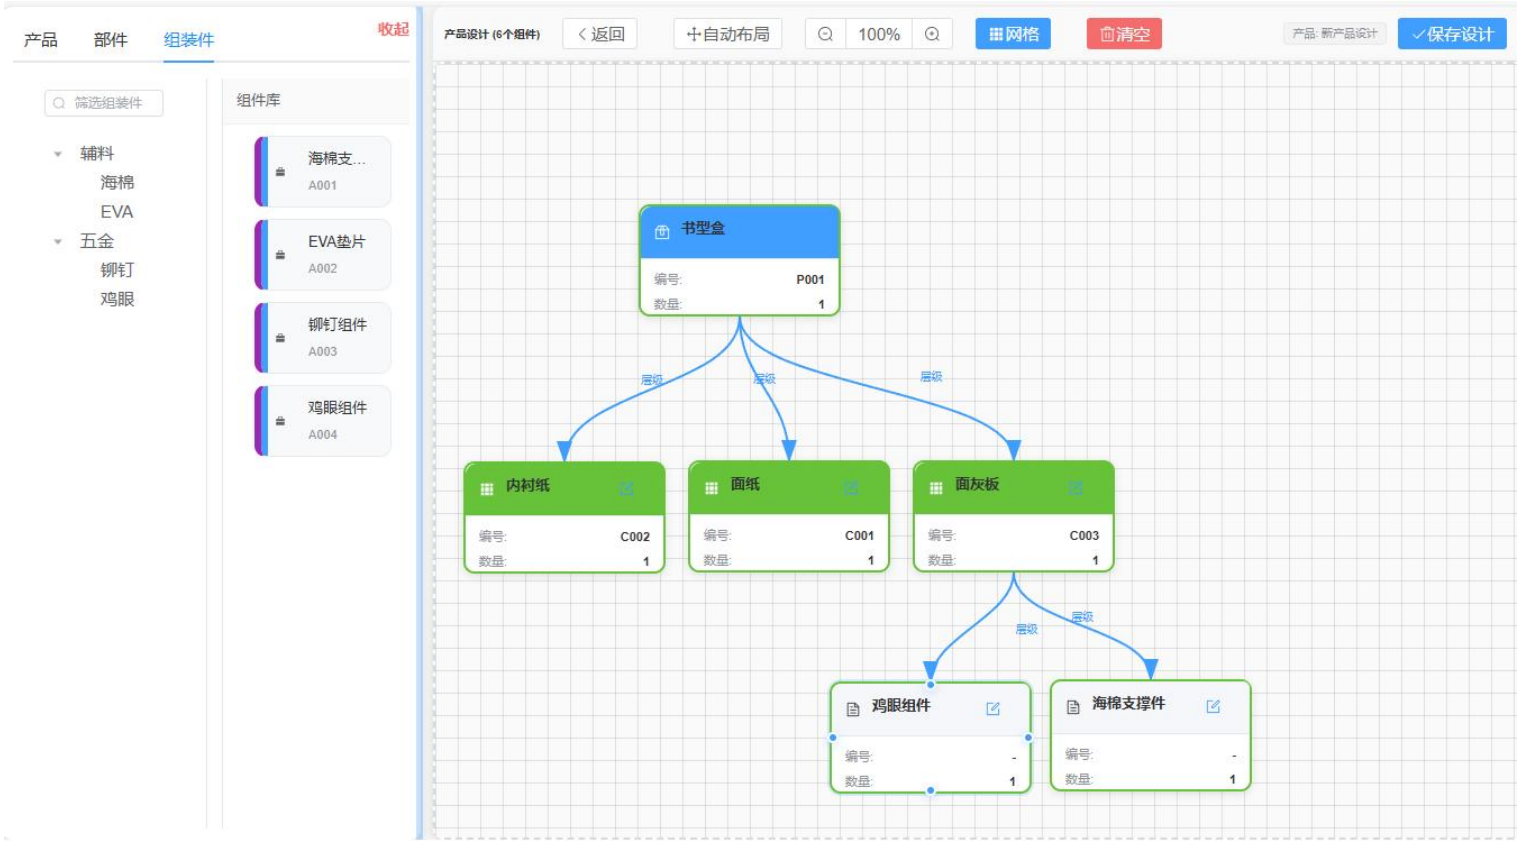
## PLM System

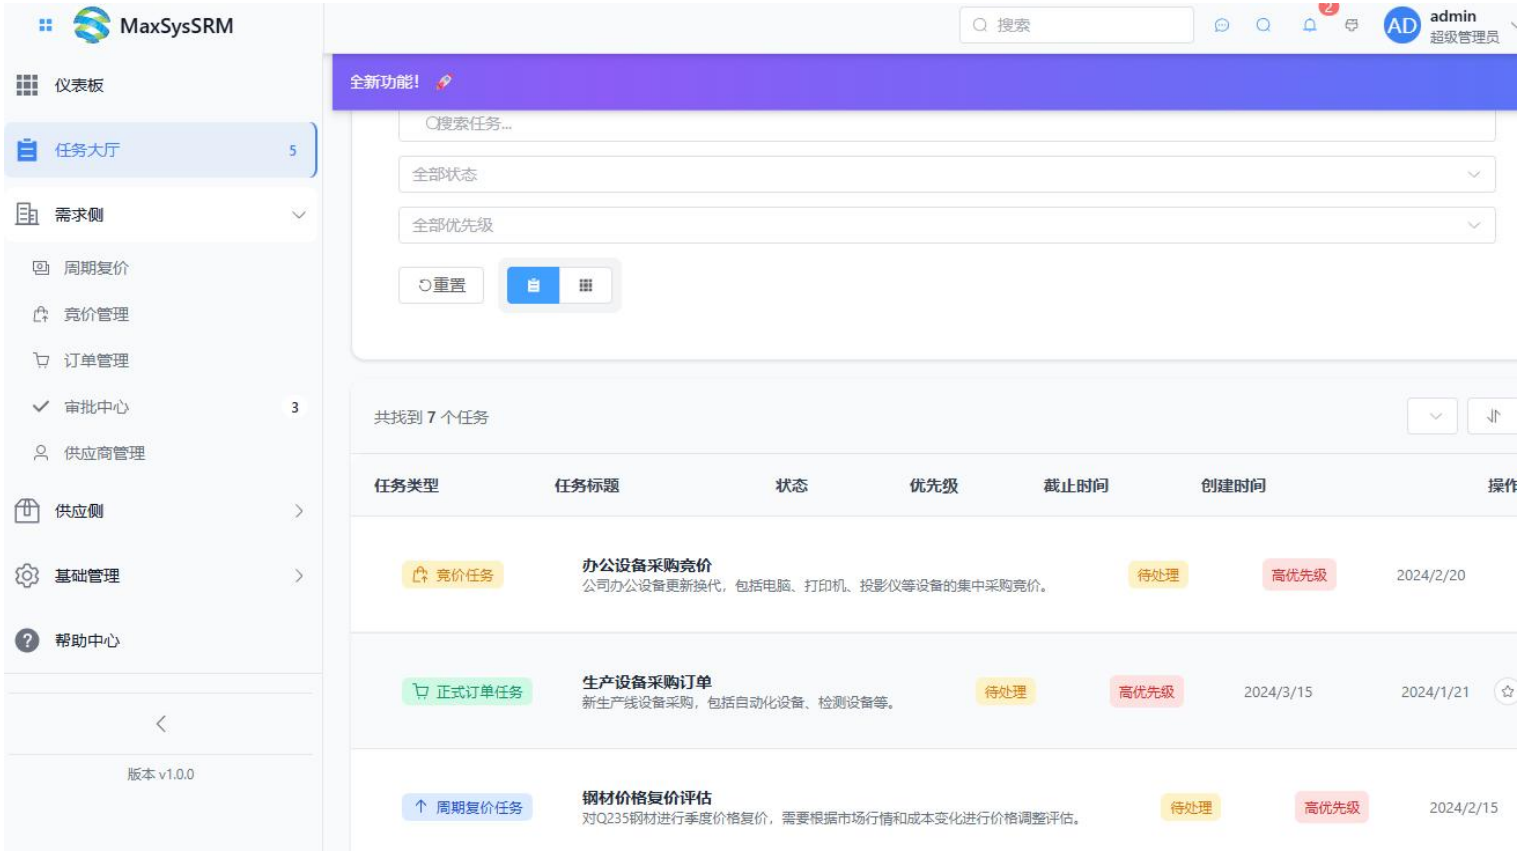


# 8 Other Systems

## FES System

# 8 Other Systems

## SRM System



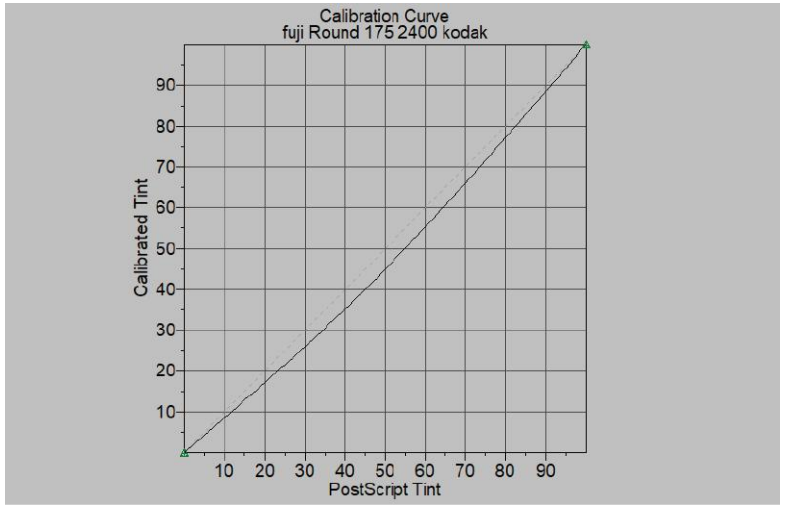
# 9 Integrated Products

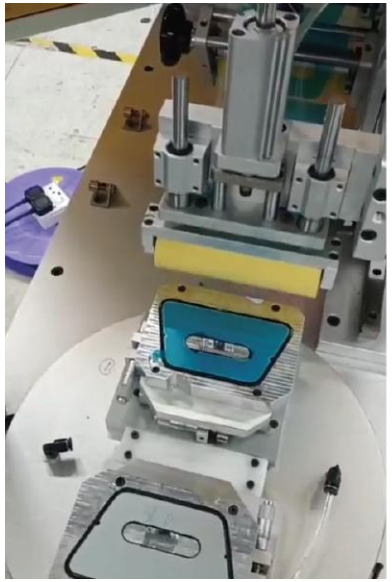
a MQS Printing Product Scanning Equipment

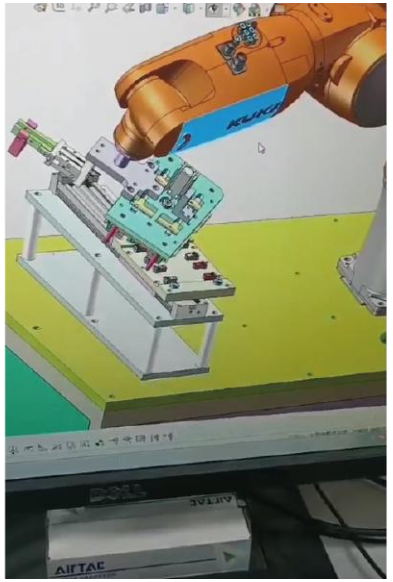
b Printing Quality Analysis Curve System

c Customized Smart Hardware Products

d Smart Warehouse and VGA Transport Vehicle







# 10 Industry Solutions

a Printing Enterprise

b Rotary Newspaper Printing

c Flexographic and Gravure Printing

d Digital Printing

e Label Electroplating

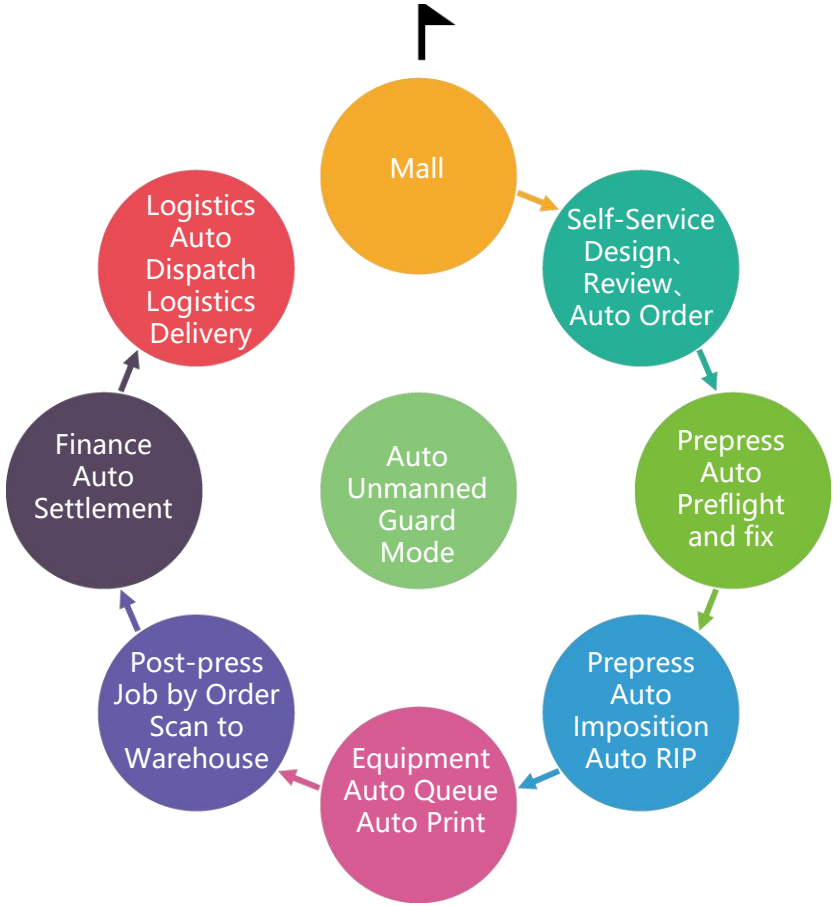
f Iron Printing and Can Making

g Special Printing

# 10 Online Design / Fully Automated Production

a Online Design - DIY at Will

b Fully Automated Production - Unattended



Self-Developed Products Stable and Reliable
Can Configure Workflow According to Enterprise Needs
Truly Achieve Unattended Production Mode!
Increase Performance 10x with 1/10 Hardware Cost!

# 10 Products and Services

a MaxSys Products

b Customized Development as Needed

c Software and Hardware Integrated Development

d Training and Services
